deliver us from all evil. Amen."

Just as blonde Anna Marie Hahn uttered these final words of the Lord's Prayer, what of electric current was suddenly turned on in the death chamber, a light bulb above "the chair" flashed a brief red, and the small, plump, 32-year-old woman they called "the poison slayer" was sent to eternity.

Appeals Pitifully

She died crying out for mercy, pitifully appealing to someone—anyone—to stay the hand of death.

She had taken only two or three steps into the death chamber when she collapsed, almost falling out of the arms of the two matrons supporting her to the floor. As helpless hands gently lifted her into the chair, she moaned:

"Don't do that! Oh, please don't! Don't do that! Think of my baby!"

She was thinking, as the cloak of death settled over her cringing form, of her twelve-year-old son, Oscar, a polite, manly lad who came here from his home in Cincinnati to comfort her in her final hours.

The eyes of fifty spectators, most of them newspaper men, were upon

SUSTAINED IN FIRE**

Tragedy visited the family of Judson C. Shannon of 1920 Moravia street, just outside the city limits in Taylor township, at 2:30 o'clock this morning, when fire of undetermined origin practically destroyed the home with a loss of around \$3,000. Only part of the loss is covered by insurance.

City firemen were summoned to the scene by an alarm from box 57, but when they arrived, found the structure a mass of flames. It was necessary to lay 1,300 feet of hose to reach the scene of the fire, and firemen were unable to save the structure.

Only Mr. Shannon was at home when the fire broke out. Mrs. Shannon having gone to the New Castle hospital to be with their baby who is ill, neighbors stated.

Mr. Shannon was unable to account for the origin of the blaze, the fire having spread considerably when he discovered it. He was able to make his way out of the burning structure in safety, however.

Leading Delegations At Lima In Accord

By THOMAS A. LOAYZA

LIMA, Peru, Dec. 8.—Virtually unanimous agreement regarding major items on the agenda exists among the most influential delegations to the Pan-American conference. Secretary of State Cordell Hull declared at a press conference today:

"The chief of the American delegation put forward his observations after sounding out the heads of other delegations last night and this morning."

Hull declared that the principal delegations to the parley, which

opens tomorrow, are endeavoring to follow a practice established at the last Pan-American conference at Buenos Aires, where full agreement on all subjects was reached privately before the issues were brought up on the conference floor.

Under this plan, the various questions before the conference would thus be presented formally as accomplished facts rather than as debatable issues.

Since arriving in Lima, Hull has been busy conferring with the chiefs of the Argentine and other delegations. He planned to continue these talks today.

Declares Business Boom Certain If Interference By New Deal Is Halted

WASHINGTON, Dec. 8.—A member of the joint anti-monopoly committee, Senator King (D) of Utah, today declared that a frank announcement by the New Deal "that it will stop interfering with business would do more to bring about recovery" than the inquiry into the nation's economic structure which the committee is conducting.

No Greater Contribution

"There could be no greater contribution to revival of business," the veteran senator asserted, "than an unmistakable announcement that 'If business could feel that government truly desires to aid in every proper way, not by bounty or gift, but by sympathetically approving the government is not going to interfere in matters which rightfully belong to the field of private endeavor; that it is not seeking to take industries over; but that its role is the one of cooperation and aid.'

"There is no doubt but that business men have been afraid; afraid of punitive legislation; afraid of government entering fields that should be occupied by individuals; and afraid of burdensome taxation; those relations necessary between

TOKYO, Dec. 8.—A 14-passenger Douglas air liner owned by the Japanese aviation corporation crashed today off Naha, Okinawa prefecture, according to reports reaching Tokyo.

The fate of eight passengers and four crew members aboard the plane was not known.

According to the advices here, the air liner fell into the sea.

The plane left Tokyo at 6:30 a. m. bound for Fukuoka, and sent out an SOS more than two and a half hours later. The message said one engine ceased functioning shortly after the plane took off and that the other had developed trouble.

The Japan Aviation corporation sent out a plane and two boats to search for the missing aircraft.

Bogus Bill Passer Is Found Guilty

West Virginia Man Collapses

PRISONER CLAIMS MISTAKEN IDENTITY

(International News Service)

PITTSBURGH, Dec. 8.—Colapsing when he heard Federal Judge R. M. Gibson pass sentence, Manuel Robles, 42, of Charleston, W. Va., today awaited transfer to a federal penitentiary where he will serve a three-year term for passing counterfeit \$20 bills in Charleroi and Clifton.

The guy which found the middle-aged bogus bill passer guilty was out less than two hours.

Earlier, U. S. District Attorney Columbus, in his plea to the jury, declared:

"I would ask you to be wary of a government's case based on one or two witnesses alone. But here we have the unquestionable, positive and certain testimony of eight responsible witnesses who have brilliant powers of observation, who say that Robles is unquestionably the man who passed the bills the night of November 24."

Robles, a Spaniard and former Homestead poolroom proprietor, was tried on the same charge last June, but then the jury failed to reach a verdict. Throughout both trials Robles has denied the charges, claiming it was a case of mistaken identity.

When the verdict was read yesterday Robles' wife, who was in court, wept bitterly.

A co-defendant, Joe Fernandes, 30, of Beckley, W. Va., is a fugitive from justice. He jumped a \$5,000 bond before the first trial.

The same was true of Manchuria and the same was peculiarly true of Czechoslovakia."

Senator Key Pittman (D), Nevada, chairman of the foreign relations committee, and Senator Gerald P. Nye (R), North Dakota, voiced similar opinions.

"Another Scrap of Paper?"

Hitler will test his solemn pact with France as "another scrap of paper," charged Senator William H. King (D), Utah.

"A statement that a country will not resort to war at a time when its every action contradicts the sincerity of that statement," Pittman said, "cannot arouse the hope we would like to enjoy."

"As far as the United States is concerned, it cannot afford to take a chance on any bare statements that countries are going to abandon war."

Ironically, Nye suggested: "Why did they not re-initial the Kellogg-Briand pact renouncing war?"

Democrats of Europe as well as the dictator nations, have disregarded treaties, according to Borah, but King continued his attack "to Hitler, Mussolini and Japan."

Most Important Issue

Francisco-Poncet's plan did not mention Tunis, and Italy considers Tunis most important of all the issues facing the two nations.

Italy's claims to a preponderance of population over the French in Tunis and to rightful ownership of the area may, diplomats predicted today, create a situation making necessary the "liberation of Sudeten Italians."

Fresh affirmations of the solidarity of the Rome-Berlin axis were interpreted in these quarters as clearly showing that Germany backs Italy to the utmost in the new approaching crisis.

Berlin-Rome Axis Firm

In some quarters in Rome, it was reported today that Germany's support of the Italian drive toward Tunis was the price German Chancellor Adolf Hitler agreed to pay for Mussolini's support in the Czech crisis.

Sixty-five per cent of the soap iron shipments are going "to the very countries that the United States looks upon as the greatest disturbers of the peace of the world," Nye added.

Sometimes the house is in one township and the barn in the other, and again the building may all be in one township, and the greater part of the farm in another. There is also the problem of knowing exactly where the township lines are located, since they are not clearly marked.

The premises will be able to say that the strikes which coincided with the outbreak of Franco-Italian tension over Rome's informal territorial demands have been virtually brought to an end through stern military measures adopted by the government.

Most of the industrial workers in northern France have returned to their jobs, following the general strike fiasco, and the French strike, but the maritime strike at Le Havre, is now being swamped with applications from strikers who want to return to work.

Meanwhile, the bitter dispute with Italy over Fascist demands for annexation of Tunisia, Corsica and other French areas appeared likely to come up for an airing in the chamber of deputies.

The sentiment of the French people on this issue was strikingly illustrated today as students at Toulouse demonstrated in front of the Italian consulate there, raucously demanding annexation of Italian Tripoli, Sardinia and Sicily by France.

Not In Accord

King, whose life so far has spanned seven major depressions, said that he does not agree with a premise laid before the committee by Leon Henderson, an administration economist, to the effect that "economic growth in this country has stopped." Neither, he added, does he believe that the testimony thus far "has produced anything not already known by anybody who reads the newspapers and magazines."

"I have a tremendous faith in the American people," King said, "and I think that if we would only turn our attention to stimulating individual initiative and free enterprise we would have the answer."

Asked what he thought the investigation, one of the most comprehensive ever undertaken, will produce, King replied:

"I believe it will be shown that our democratic processes must not be encroached upon; that free enterprise must never be replaced by regimentation, and that any policy which projects government unceasingly into private endeavor is a harmful one and an obstacle to genuine recovery."

"I think there will be some changes in existing law—the patent laws and the Federal Trade Commission Act. I doubt if there will be any need demonstrated for change in the anti-trust laws. I think they are adequate now, if properly enforced, to afford protection against monopoly."

Third, France would guarantee French withdrawal from Spain.

Mussolini was reported to have met Francois-Poncet's offer with the flat assertion: "Between Italy and France stands Spain." He added that Italy was prepared to negotiate with France if France was ready to grant General Francisco Franco immediate belligerent rights.

Senators Harry S. Truman (D), Missouri, urged stronger coastal defenses for the United States, with emphasis upon aircraft and anti-aircraft guns as "an insurance for peace." Nye stated he will ask Congress to impose an embargo on all scrap iron exports.

"Whichever direction a war may come from, it would be American scrap iron that would be used against American boys," Nye declared.

Stern Funeral

The Offutt funeral home was filled by sorrowing relatives and friends, Wednesday afternoon, when at 2 o'clock funeral services were conducted in memory of the late William T. Stern, of 26½ North Mill street. A great many flowers had been sent, mute testimony to the regard held for the deceased young man.

The pallbearers were John Oberleiner, Charles Slack, Howard Lent, Thomas Schibik, Robert Sizer and Charles Sizer.

Interment was in Oak Park cemetery.

Funeral of Miss Ruby

Funeral services for Miss Alma Ruby were conducted Wednesday afternoon from the home of her sister, Mrs. Howard McQuiston, on the New Wilmington road, with Rev. J. B. Edwards, pastor of the New Wilmington M. E. church, in charge.

The pallbearers were Harry, Wilbur, Homer and Fred Ruby, brothers of the deceased, and Earl and Junior Ruby, nephews.

Interment was in Neshannock cemetery, New Wilmington.

Steve Kozlowski Funeral

Funeral services for Steve Gillespie Kozlowski were conducted Wednesday morning at 9:30 o'clock from the late residence, 1517 Morton street, Rev. V. V. Stancewski, pastor of SS. Philip and James church, officiated at the high mass of requiem and conducted the committal service at the side of the grave in St. Mary's cemetery.

The funeral was largely attended and final rites accorded an ex-soldier of the World War who was buried at the cemetery.

Leader of the fight in the house was Rep. John J. O'Connor (D) New York, chairman of the influential house rules committee who was the victim of the administration's so-called "purge" in the New York elections. It was O'Connor's opposition to reorganization that finally led him to an open break with the New Deal.

With the possibility that today's conference may convince the president that another attempt should be made to put the reorganization bill through congress, observers on Capitol Hill foresaw a long and bitter fight.

**Good Progress
Being Made On
New Road Here**

Expect To Complete Roadway
To Pottery By First
Of January

Excellent progress is being made
by workmen of the construction
company erecting the roadway from
East Cherry street to the Uni-
versal Pottery Company, in the Sev-
enth Ward district.

Although work on the road was
only started a short time ago, the
route of the new road can now easily
be seen. A small stream of water
has been bridged with large sewer
pipes covered with several feet of
earth.

It was announced today by those
in charge of the construction task
that it is expected that the job will
be completed, and the road in use by
the first of January.

When completed this roadway will
cut out the hazard of crossing the
many tracks at the B. & O. railroad
shops, for those enroute to the pot-
tery.

**Wiring For Ward
Lights Is Begun**

Power Company Installs Sec-
ondary Power Line In
Area Today

Workmen from the Pennsylvania
Power Company were in the Seventh
Ward today installing secondary
power lines to supply current for the
Christmas lighting decorations.

The secondary lines were being
placed along North Liberty street,
this morning.

It was learned from the committee
from the Seventh Ward Civic club,
that as soon as the power company
completes their work, the light
strings will be mounted on the poles
and tapped into the electric supply
lines.

Members of the committee stated
today that it is hoped that every-
thing will be completed and the
lights turned on by Saturday night.

**Repairs Are Being
Made At Station**

Repairs to the station platform
at the B. & O. railroad in the Sev-
enth Ward were started Wednes-
day.

Workmen were busy re-building
the loading platform to the side of
the freight station. Many old planks
that were badly rotted away were
being removed and replaced with
new timbers by the workmen.

CUP DISPLAYED

IN CLUB WINDOW

Displayed among the attractive
array of Christmas decorations is
the cup awarded the Wabash Bears
football team for recognition in win-
ning the Independent City Cham-
pionship title this past season.

The cup reposes in the window of
the Bear's club room, on North Lib-
erty street. Many persons passing
the window hesitate long enough to
view the cup and the Christmas
display.

Urge Government Assume Proper Role As Umpire; Not Business Competitor

(International News Service) NEW YORK, Dec. 8.—Assumption by the Federal government of its proper role as an umpire in the affairs of its citizens was urged Wednesday by Charles R. Hook, president of the National Association of Manufacturers, in a keynote address before the annual Congress of American Industry.

Hook, who leads the American Rolling Mill Company, outlined a five-point program designed to further national economic progress and called upon all elements of American life—business, labor, agriculture and government—to cooperate in achieving the program's aims.

Program Recommended

He recommended:

- Increased production to stimulate purchasing power instead of artificial price-fixing, artificially supported wage rates and group subsidies.

(2) Elimination of government competition with private enterprise.

(3) Appointment of a presidential commission to overhaul the present tax structure.

(4) Establishment of a national labor relations policy based on "fairness and common sense."

(5) Reemployment of the 30,000-odd idle workers by establishing a "square deal" for American industry.

All Made Mistakes

Hook prefaced his address with the declaration he had no intention of indulging in recriminations, conceding that "we have all made mistakes in these last several years"—business, labor, agriculture and government. He decried one asserted mistake of the first three groups who, he said, hastened to Washington, each with its troubles, "instead of sitting down in a spirit of good will with a determination to find their own solution, through cooperative

effort."

But, pointing out that the past ten years were the first such span in national history in which average living standards have not progressed, he added:

"The past ten years have been ones during which much of the time, government has acted not only in its proper role as an umpire, but also, in an improper role as a direct participant in the affairs of its citizens."

"If these years have demonstrated anything, they have shown that as a nation we cannot progress under an economic experiment that contains the elements of government supervision over business, government participation in business, and increasing government competition with business."

"And, if we are agreed we cannot progress by that method, then how can we possibly find assurance of progress in a system under which government operates everything because it controls, or owns, every thing."

Annual Scouting Meeting Tonight

Annual meeting of the Lawrence County Boy Scout Council, will be held tonight, in the George Washington Junior High school building, Euclid avenue.

The event will begin at 6:30 o'clock, with a dinner. During the business session, later in the evening, an election of officers to serve during the coming year will be held.

Two persons were injured and an automobile damaged during recent days picketing at the gates of the company's plant recently. Burgess Kell said he was in Harrisburg at the time.

WHAT OF VITAMINS?

PELLAGRA AND VITAMIN B 2
While we are on the subject of vitamins, and before we leave the vitamin B group we were discussing yesterday, I think I should have something to say about the vitamin which has been called B 2, or sometimes Vitamin Nine.

It is interesting to note that this Vitamin B 2 differs from B 1, which we discussed yesterday, in that it is not destroyed by heat, but is soluble in water.

The great value of this vitamin has been demonstrated in the Southern state where the disease pellagra used to levy such a terrible toll of lives on the poorer people.

Pellagra is a disease which is characterized by skin eruptions and diarrhea; usually before death takes the victim, there is a history of a

brain condition. That great scientific foundation, the Rockefeller Institute of New York, spent a great deal of time and money tracking down the cause of the disease. They found that, like beri-beri, pellagra is caused by deficiencies in the diet.

They found that these people of the South subsisted on a diet composed of pork and corn meal, for the most part. At that time very little milk was consumed, and vegetables were a scarce article. As soon as they got the people to drinking milk, to growing and eating vegetables, the ravages of pellagra were reduced tremendously.

The Institute's scientists found that it was lack of Vitamin B 2 that caused this scourge. Yet it is found in fresh meat, milk, fish, vegetables, grains, peanuts and yeast. It is not destroyed, by ordinary heat so it is found in the following canned goods: salmon, corned beef, chicken, haddock, pras, tomatoes.

This vitamin isn't stored in the body. It is up to the individual therefore, to make certain that his body gets a steady supply of it from his diet. Signs of deficiency often show as an upset digestive system, by body rashes. The skin often seems to thicken, often the tongue and the mouth will be sore and ir-

ritated. Children are apt to show a loss in weight and strength when there is a deficiency in the vitamin. Very often the child will look underfed.

A large number of doctors firmly believe that children whose diet is strong in Vitamin B 2 will not contract infantile paralysis. I can't say for certain that this is the case for I haven't noticed it particularly in my practice, as we do not have many cases here of this particular disease, and the people live on simple home-grown food. But I do know this—a child whose strength and resistance is kept up with the proper vitamins certainly is in a much better position to resist that and all other diseases, and it is very easy precaution to take.

This Vitamin B 2 or Vitamin Nine has been called "the poor man's vitamin" because it is so commonly lacking in low-cost diets.

These diets often have too much cereals and fats and in these there isn't enough of this particular vitamin.

Refused License In Two States,
Couple Wed Wednesday,
Are Pittsburghers

Information News Service
PITTSBURGH, Dec. 8—John H. Rolls, 56, of West View, today was the husband of his own daughter-in-law despite having been refused a license for the ceremony both in Pennsylvania and West Virginia.

And in case anybody has any objection:

"It's none of your business," Rolls firmly announced.

Undaunted by the illegality of the act in two states, Rolls and his son's widow applied for a license in Cumberland, Md., in a "third time's a charm attempt." The ceremony was successfully performed there yesterday.

Robert Rolls, the son, was drowned in a canoeing accident while on a vacation in Bala, Ontario, in the summer of 1930. The wife of the elder Rolls died last year from a heart ailment.

At the time of the son's death, the widow went home to her mother's to live and four-months-old Robert, Jr., was sent to his grandfather, now his stepfather.

Rolls declared his love for his grandson was "more like a father toward his son," and has now taken the position of "father" in the boy's life.

"I've always felt like a father to Robert since his father was drowned," Rolls said.

News Briefs
From City Hall

With the holiday season in, police have received instructions from Police Chief Ralph A. Criswell to maintain a sharp watch on parked automobiles in an effort to minimize theft of articles from cars, the doors of which should be locked, the chief stated today.

Marjorie Howe, 312 Summer avenue, parked her bicycle near a store at Norwood and Highland avenues while she shopped last night. The bicycle was stolen. It was a Belllast and carried serial number C62233.

Mrs. S. D. Pearson, 421 East Moody avenue, parked her automobile in North Mill street near Falls street. She was gone two minutes when she returned she discovered her pocketbook had been stolen from the auto.

Dogs howled long and loud last night in Jackson avenue. This was sufficient reason for the dog-catcher to visit that thoroughfare today to gather in any stray dogs there.

Louis Wrona, 13, 216 Balph avenue, was bitten by a dog owned by Domenick Lombardo, 1018 Summer street yesterday, a police report stated. He was enroute home from school when attacked.

Lawrence Italo, 516 North Liberty street, informed police today that on three consecutive nights the gasoline in his auto tank has been stolen.

Report the theft of auto license plates immediately, Police Chief Ralph A. Criswell advised today. "They may be stolen by bandits to be placed on other cars," he asserted.

Telena Schleenvol, Y. M. C. A., told police he parked his car near there last night and someone took his auto, used it for two hours, then returned the machine.

*Say, it—with
a Clear Skin*

OUR SKIN frequently reflects how we feel. In business and social contacts we like our friends to tell us how well we look.

The body now recognizes—as physicians and scientists have for years—the vital importance of rich, red blood, as the foundation of strength, energy, and a clear healthy skin.

For that tired-down feeling it is well known how worn, overwork and undue strain take their toll of the precious red cells of the blood.

S.S.S. Tonic brings you new strength and vitality by restoring your blood to a healthy state, and its benefits are cumulative and enduring in the absence of an organic trouble.

Improves the appetite. Further, S.S.S. Tonic when the appetite... foods taste better... natural digestive juices are stimulated, and finally, the food you eat is of more value... a very important step back to health.

Buy and use with complete confidence, and we believe you, like thousands of others, will be enthusiastic in your praise of S.S.S. Tonic for its part in making "you feel like yourself again."

At all drug stores in town. You will find the larger size more economical.

S.S.S. Tonic stimulates the appetite and helps change weak blood cells to strong ones.

Business Activity Is Maintaining Pace Commenced Last June

International News Service
WASHINGTON, Dec. 8.—Business activity currently is maintaining the recovery pace that started in June and is expected to yield a Christmas trade surpassing that of 1937. Secretary of Commerce Roger reported Wednesday.

At the same time the commerce department estimated that construction expenditures for 1938 will reach \$2,600,000,000, the highest since 1936 and \$200,000,000 greater than in 1937.

Industrial production experienced a sharp rise in November," Roger said. "Distribution records an improvement in the flow of general merchandise into the hands of the consumers. The further gain in the index of manufacturing output during November reflected primarily expansion in the steel industry and rapid increase in automobile production."

General Improvement

Production data for other industries, while not recording as large increases as reported for steel and automobiles, indicates general improvement over the same period last year.

While general construction activity expenditures were higher than in any year since 1930 the department said this activity includes private work and as well as maintenance and work relief construction projects of the federal government.

A decline in private construction was more than offset by the increase of \$500,000,000 in public construction. Actual new construction this year called for expenditures of \$5,-

FALSE TEETH

That Loosen

Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at the wrong time. Don't let this happen to you. Just sprinkle a little FALSE TEETH, the alkaline (non-acid) powder on your plates. Holds false teeth more firmly, so they feel more comfortable. Does not sour "Cheeks" (plate odor). Adventure broach. Many City Improvement Projects Being Estimated

Proposed city-WPA projects next year will cost the city of New Castle \$156,586.00, according to estimates already compiled in city hall. However, it was not believed today that all the projects on which estimates were provided would be completed.

The paving project would cost \$73,600.00; grading, \$1,000; storm sewers, \$44,000.00; sanitary sewers, \$2,100.00 and miscellaneous projects \$35,800.00.

Estimates for paving 22 streets were compiled. However, it was reported today that approximately 11 thoroughfares would be paved. Those which may be improved follow:

Blaine street, Lincoln to Park avenue.

Electric street, Hamilton to Grimes street.

Delaware avenue, Hillcrest to Edgewood avenues.

Erie avenue, Walnut street to Crawford avenue.

Grant Street, Mill to East street.

Logan street, Boyles to Moody avenues.

Hillcrest avenue, Delaware to Audley avenues.

Northview avenue, between Highland and Delaware avenues.

Garfield avenue between Delaware and Neshannock boulevards.

Huron avenue between Lathrop street and Frank avenue.

Linton street, Moravian to Mercer streets.

The foregoing would cost the city about \$55,000.00 which would be assessable for materials against abut-

ments.

One project calls for a sanitary sewer in First street between Blanche and LaFayette street. This would be an assessable job costing \$2,100.

Miscellaneous projects proposed are gutters, sidewalk replacements, disposal plant improvements, improvement of the Big Run and Cascade park improvements. A property inventory suggested some time ago, would cost \$2,800. However, council recently indicated that they may not put this through because they claim the information collected could not be used for taxation purposes.

Kane Is Still In Running For Game At Miami

(International News Service)

MIAMI, Fla., Dec. 8.—The choice for a northern representative in an inter-sectional football clash in Miami on Christmas Day was reported today to rest between Kane, Pa., high school and East Aurora high of Aurora, Ill.

Numerous applications have been received from out of town teams to meet the Miami champion who will be decided on Dec. 19 in a game between the Miami high and the Miami Edison Prep teams.

A playoff was required because of the 6-6 deadlock when the two met several weeks ago during the regular season.

The selection of a northern opponent for the winner is expected to be made within several days.

Seniors Nose Out Devil Dogs 29-27

(International News Service)

MIAMI, Fla., Dec. 8.—A definite announcement on what out-of-state team if any will play a Christmas Day game against Miami's leading high school, will be given in the next day or so, officials announced Wednesday.

Committee officials were expected to confer today to decide as to plans for the post-season game. This will allow the invited team plenty of time to begin training and make arrangements for the trip, it was learned.

Before this, Miami and Edison high schools are scheduled to play off a tie on December 19, and then it will be left entirely to the winning coach to decide whether to challenge a leading out-of-state opponent.

Two high school elevens from Pennsylvania will be among those considered in the event of a Christmas Day game. Kane high, powerful northwestern Pennsylvania team, and McKeesport high, class AA, WPIAL champions, were believed in line for the journey.

Ellwood High Athletes Feted On Wednesday

ELLWOOD CITY, Dec. 8.—With delicious turkey providing the opposition, Ellwood City high school Warhorses said through a pleasant assignment last night with perfection and ease as they have done so many times this fall on the soccer field.

The most enjoyable affair was a banquet tendered the athletic department of the Lincoln high school by the Board of Education and took place in the school dining room.

Every boy on the squad down to the last sub, each with a grin like a half moon, was there, as were the basketball squads of the current year and of last year. Directors, faculty members and friends composed the guest list.

Intended to be the big feature of the celebration was the meal, prepared and served by the domestic science department under the able supervision of Miss Eva Jackson, and it fulfilled the assignment to the top degree. The menu consisted of tomato juice, roast turkey, stuffing, cranberry relish, potatoes, gravy, croquette puffs, brussel sprouts, relishes, raspberry ice, holiday salad, ice cream, cookies, coffee and candy. The large turkeys were expertly carved at the long tables by members of the administrative board. H. W. Smith offered the invocation.

An appropriate and attractive blue and white color scheme was carried out in the appointments with the tables being prettily decorated with bowls of white mums, blue and white tapers and matching favors.

Entertaining and brief, the program was free of lengthy platitudes. R. J. Hawke was a happy choice as toastmaster. Although each speaker, two minutes, he kept the program from becoming monotonous and or-

Trophies Presented

William L. Dean, president of the board, was first after which Tom Jones, captain of the team, presented Conches Croft and Gills with beautiful trophies as a token of affection from the football squad.

Responding, head coach, Thurman Croft, deeply appreciative of the surprise gift, said "I don't need any trophy to remember these fine boys. I'll always remember them down to the last one. Every man stayed with me." He paid a very fine tribute to Coach Gills, line coach, and expressed appreciation of the noticeable progress being made by the Junior high squad under Harold Bury and its effect on the senior high teams. In speaking of aim from the school, he concluded: "It's not hard to work in a system that is so co-operative."

Introduced as the speaker without a "line" Howard Gills shyly thanked the team for the trophy and recalled high spots of various games in which individual players proved their worth.

V. R. DeLong, of Oil City, former superintendent, was introduced by Ben Keller, of the team and was presented with the ball used in the Algonquin game, which was of special significance to him. He spoke briefly.

Referring to the approaching sea-

son, Gerald Newton basketball coach with confidence stated that he expected a victorious season. Bob DeBortoli, of the basketball team, said that Ellwood had its best season in ten years last year and urged the

school to continue the good work.

players to make the coming campaign even more successful.

Tracing the history of football from its beginning, J. Ellis Bell, superintendent of schools, proved to be an attention-holding speaker. In concluding he paid the mentors a sincere and outstanding tribute by saying "In sizing up sportsmanship you'll find it's in the coach. The type of coach is reflected in the boys and what they do."

Moving pictures of the Bessemer and Beaver Falls games were shown by John King and George Herold and they were a fitting climax.

From beginning to end the merry, informal affair was marked by a feeling of warm fellowship and down through the years will remain as a bright star in memory's storehouse of happy, school day activities.

Biordi Announces

Date For Banquet

Annual Football Event To Be Held Thursday, January 19, At Elks Club

ELLWOOD CITY, Dec. 8.—An announcement was made this morning by Andy Biordi that his fifth annual banquet for the Ellwood City high school football players would be held on Thursday evening, January 19, at the local Elks club.

In the past years Biordi's banquets have been outstanding affairs both from a standpoint of interest and attendance and he is making more extensive arrangements this year than ever to make this event surpass the others.

Coach Bill Kern of Carnegie Tech, who scored a tremendous hit here last year; Marshall Goldberg and Dick Cassiano of Pitt have definitely been secured as program speakers. Bill McMillin, one-time Geneva college coach, now of Indiana university, is also expected to take part in the celebration. A fine orchestra has been secured for the occasion and instead of moving pictures there will be a six act vaudeville performance this year.

Denny Schill will preside as toastmaster. The entire football squad will be guests of Biordi, Ellwood City high school's most ardent football supporter, and the lettermen will be presented gold medals by the sponsor.

Owing to the limited seating arrangements of the Elks club only 250 reservations can be accepted and already a great many advance reservations have been made, including the full membership of the Kiwanis club. Tickets will be one dollar.

Introduced as the speaker without a "line" Howard Gills shyly thanked the team for the trophy and recalled high spots of various games in which individual players proved their worth.

Ellwood High Athletes Feted On Wednesday

ELLWOOD CITY, Dec. 8.—With delicious turkey providing the opposition, Ellwood City high school Warhorses said through a pleasant assignment last night with perfection and ease as they have done so many times this fall on the soccer field.

The most enjoyable affair was a banquet tendered the athletic department of the Lincoln high school by the Board of Education and took place in the school dining room.

Every boy on the squad down to the last sub, each with a grin like a half moon, was there, as were the basketball squads of the current year and of last year. Directors, faculty members and friends composed the guest list.

Intended to be the big feature of the celebration was the meal, prepared and served by the domestic science department under the able supervision of Miss Eva Jackson, and it fulfilled the assignment to the top degree. The menu consisted of tomato juice, roast turkey, stuffing, cranberry relish, potatoes, gravy, croquette puffs, brussel sprouts, relishes, raspberry ice, holiday salad, ice cream, cookies, coffee and candy. The large turkeys were expertly carved at the long tables by members of the administrative board. H. W. Smith offered the invocation.

An appropriate and attractive blue and white color scheme was carried out in the appointments with the tables being prettily decorated with bowls of white mums, blue and white tapers and matching favors.
